MESSAGE FROM UCI PRESIDENT

Every year, the UCI Road World Championships give rise to a level of excitement and range of emotions that mark not only the athletes, but millions of fans worldwide eager to witness this magnificent sporting show.

The prospect of winning the rainbow jersey and joining road cycling's prestigious list of UCI World Champions is a source of unparalleled motivation for cyclists competing at the very top of our sport.

This year, that motivation will be all the higher, given that we are celebrating the centenary of the UCI Road World Championships. Our 2021 UCI World Champions will be crowned exactly 100 years after Sweden's Gunnar Sköld raced to victory in Copenhagen, Denmark, in 1921.

Since then, our UCI Road Worlds have crowned a great many champions, men and women, who have contributed to our sport's incredible history. Cycling's ever-evolving story continues this year in the renowned cycling region of Flanders. It would be difficult to find a more fitting setting for this centenary edition than Belgium's heart of cycling that is home of great names such as Eddy Merckx, Yvonne Reynders, Johan Museeuw and Tom Boonen. Flanders has already hosted our UCI Road World Championships four times – in Moorslede in 1950, Waregem in 1957, and Ronse in 1963 then again in 1988 – and is also famous for its organisation of some of the great Classics that see riders tackle the region's challenging cobbles and demanding "monts".

We therefore have no doubt that the 2021 UCI Road World Championships will be of the highest quality. For this, I would like to extend my sincere thanks to everyone involved in their organisation, not least Flanders 2021, EventFlanders, the Flemish Government, the host cities Knokke-Heist, Brugge, Antwerp and Leuven, as well as all the event's partners, sponsors, officials and volunteers, all of whom have an important part to play in the success of this major competition. As always, we can also rely on the commitment and support of Belgium's National Cycling Federation, the Royale Ligue Vélocipédique Belge, and its President Tom Van Damme.

The 2021 UCI Road World Championships will be a major celebration of the last 100 years. The UCI has invited its former and current UCI World Champions from the world over to join us in Flanders for this celebration, and to take part in numerous activities organised in their honour. Never before have so many UCI World Champions been gathered in the same place at the same time. Between 19 and 26 September, their number will swell when we discover who will be crowned 2021 UCI World Champions.

We can be sure to witness exciting battles, and on behalf of the UCI, I wish the best of luck to all participants in the centenary edition of the UCI Road World Championships.

WELCOME TO FLANDERS

Exactly 100 years after the very first edition which took place in Copenhagen in Denmark in 1921, the UCI Road World Championships is coming home to the heart of Europe, in the Flanders region of Belgium, from 19 to 26 September 2021. This historical edition will be marked by different celebrations including a gala dinner with former UCI Road World Champions as guests of honour.

Bordering the North Sea to the west, Flanders lies between the Netherlands and France. Flanders is the northern, Dutch-speaking region of Belgium and is the gateway to Europe. The main cities are Antwerp, Ghent, Brugge and Leuven.

Cycling is an integral part of Flanders' heritage. With a terrain of winding, narrow and sometimes brutal roads, the ancient cobbles stand testament to the pain, courage and endurance of many of the most hardened cycling champions.

Races such as the Tour of Flanders – Ronde van Vlaanderen (one of the five cycling Monuments) and Gent-Wevelgem in Flanders Fields offer a labyrinth of intricate routes that weave between traditional villages and farmland. Flanders' line between the epic and the ordinary, the mortal and the hero, the dream and the reality, is sometimes as thin as it gets. The region is the territory of the true "Flandriens": strong and relentless cyclists, who never give up and keep on riding, even in the most inclement of weather conditions. In Flanders, the honorary status of "Flandrien" is only granted to cycling legends such as Eddy Merckx, Johan Museeuw, Tom Boonen or Yvonne Reynders.

It's more than just bicycle routes, Flanders is a unique place for every cycling passionate. The cobbled climbs set it apart from other destinations. You can experience the four K's of Flandrien heritage: the fabled Koppenberg, the everlasting Kwaremont, the legendary Kapelmuur and the ferocious Kemmelberg. Anyone calling themselves a real cyclist, must have conquered the Flanders' bergs and cobbles at least once in their life.

Flanders is an all-year-round cycling mecca. Every weekend in winter, there are races in muddy, or frozen fields or forests.

Cycling - recreationally as well as competitively -, is not merely popular: it is deeply loved in Flanders. The region was awarded the UCI Bike City Label in February 2021. This label supports and rewards cities and regions which not only host major UCI cycling events but also invest in developing community cycling, related infrastructure and programmes.

The Flemish government invests up to 300 million euro a year to maintain or build cycle paths. Safety is an absolute priority for cycle policy in Flanders. That's why there's been heavy investment in the necessary infrastructure.

Flanders is equally ambitious when it comes to sport. This is apparent through the region's commitment to organising large sporting events and constructing modern sports infrastructure, but even more so in the sports participation rate of its population. Almost 65 percent of the population engages frequently in sport.

VISITFLANDERS

**CYCLING^{IN}
FLANDERS**

Sport Vlaanderen, the sports administration of the Flemish government, wants to provide everyone in Flanders with as many opportunities as possible to play sports and exercise, regardless of age, background or ability. At the same time, it makes every effort into helping its top Flemish athletes excel at world level.

FLANDERS IS ART, FLANDERS IS HERITAGE

Flanders is packed with a rich heritage. That enormous legacy was bequeathed by many generations of brilliant craftsmen such as the Flemish Masters Jan Van Eyck (The Adoration of the Mystic Lamb), Pieter Bruegel and Peter Paul Rubens. They and their many bold heirs have made and still make Flanders the cultural gem it is today. Their masterpieces are on display in museums all over the world. These Flanders' art cities demonstrate their prestigious history.

The same goes for Flanders unique food culture. Love of food and flavour is in a Fleming's blood, and good taste is rooted in the Flemish DNA. Besides the world known fries, beer and chocolate there's much more to discover. Whether it's art, heritage, food, comics, fashion, jewellery or anything else: modern craftsmanship, built on a long legacy/tradition is what makes Flanders stand out.

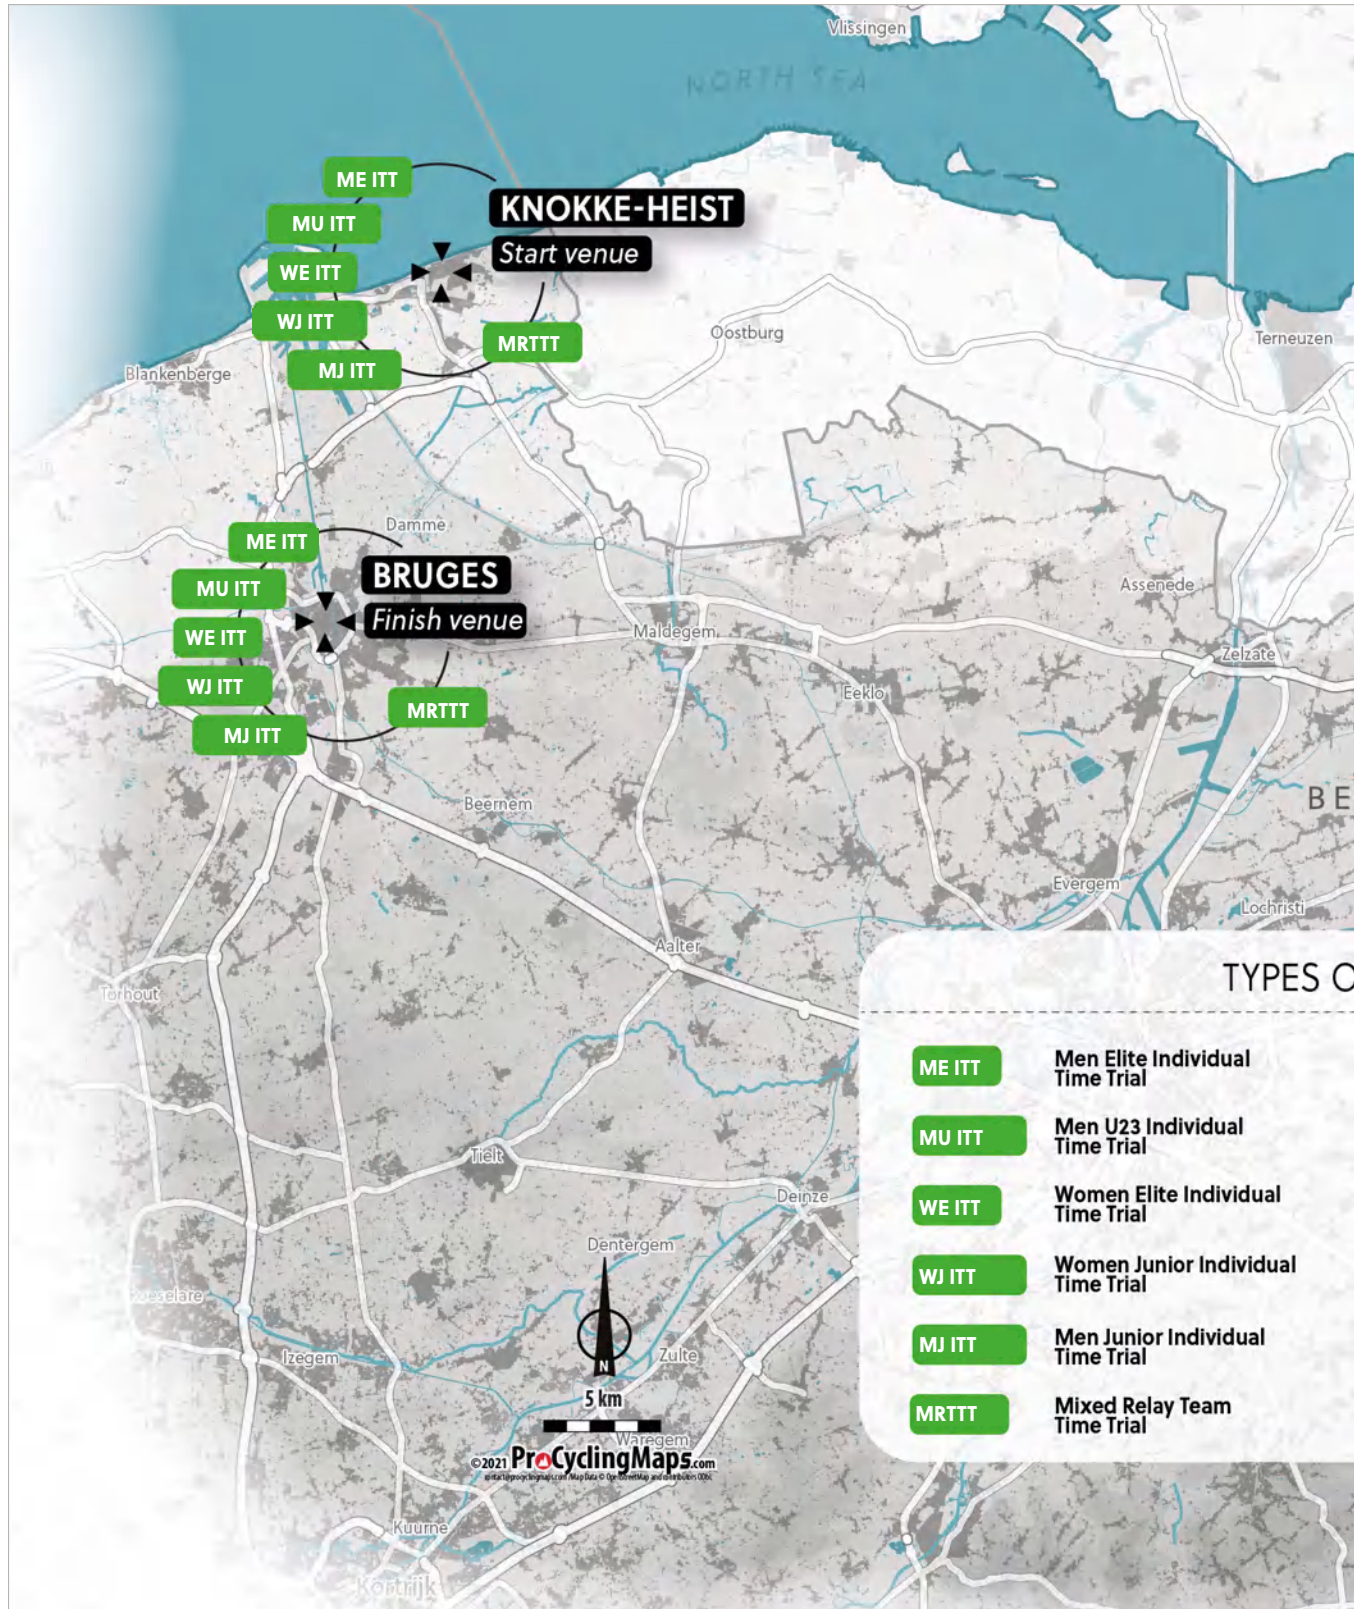

HOST CITIES

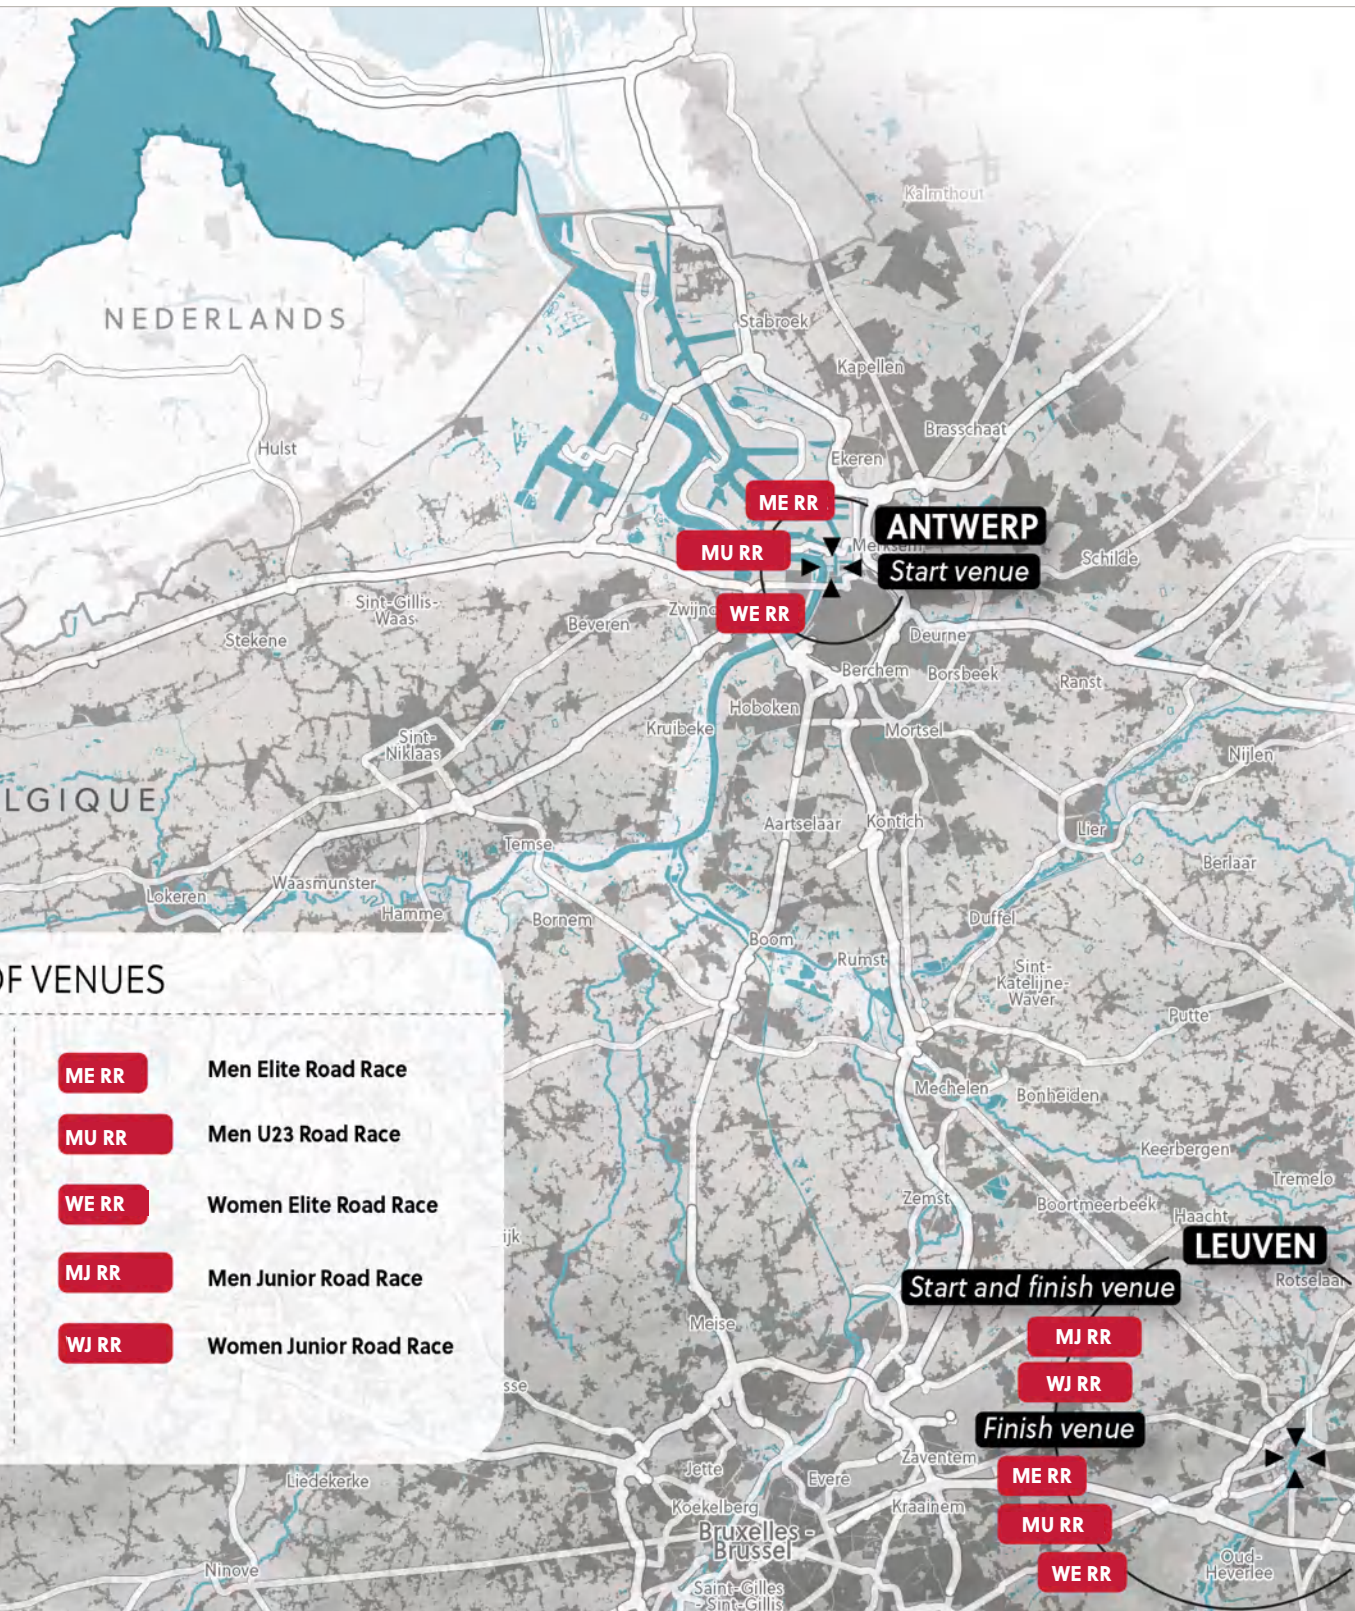

The races for the highly coveted rainbow jerseys of UCI Road World Champions will be spread over four host cities: Knokke-Heist, Brugge (for the time trials) and Antwerp and Leuven (road races).

RADIO FREQUENCIES

Any teams, broadcasters, press and any other individuals planning to use radio equipment in Belgium must request a licence for the use of private radio communication stations from BIPT (the federal regulatory body responsible for regulating the electronic communications market, the postal market and the electromagnetic spectrum of radio frequencies).

Application instructions and request form can be found here:

<https://www.bipt.be/consumers/publication/application-form-to-obtain-a-license-for-the-use-of-private-radio-communications-stations>

More information about pricing can be found here:

<https://www.bipt.be/consumers/publication/tariffs-2021>

Make sure to apply for a licence in time. For temporary licences, if an application is submitted less than five working days before the desired date of use, the handling fees are doubled. If an application is submitted less than two working days before the date of operation, the handling fees are quintupled.

The BIPT advises to submit the application **twenty working days** before the desired date of licence use.

The date considered is that of the postmark in case of an application by letter or the date of receipt by the Institute in case of an application sent by fax or e-mail.

More information concerning the request for a licence for the use of private radio communication stations from BIPT can be found on the BIPT website: <https://www.bipt.be/consumers>

ANTWERP

Antwerp and Leuven will be the hosts of the road races. Both versatile, ambitious and gems in their own right.

Antwerp is the world's diamond capital and Europe's second largest seaport. Antwerp's history and modern reputation have made it a magnet for creativity and youth. Antwerp, a friendly and walkable creative centre, offers a natural mix of old and new across its art, fashion and architecture..

Visitors fall in love with Antwerp's charm from the moment they arrive in its "railway cathedral", a Central Station considered among the most beautiful in the world. From there, it's a short stroll to many of the city's other architectural masterpieces, such as the Cathedral of Our Lady and the Grand Place, home to the Town Hall and the 16th century Guild Houses in which the reputation of Flanders' peerless craftsmanship was first forged. These great historical buildings are also home to some of the world's finest works of art, produced by the Flemish Masters Peter Paul Rubens, Jacob Jordaens and Anthony Van Dyck. More contemporary attractions in Belgium's 'capital of cool' include the state-of-the-art Museum aan de Stroom in the fashionable dockside neighbourhood of Het Eilandje, the city's famous Diamond Museum, Antwerp ZOO, and the Port House by Zaha Hadid. LEUVEN

Leuven is the fourth hometown of the UCI Road World Championships. It is the capital of [Flemish Brabant](#), the region that will be the setting of the Flemish circuit during the road races.

A vibrant student population and a rich history are intertwined in the city of Leuven, home to one of Europe's oldest universities. It's jam-packed with students, professors, innovators and inventors. Its internationally renowned university, KU Leuven, has shaped the city for nearly 600 years. It has its roots in the centre of Leuven, and its historic college buildings dominate many of the squares and streets. Always poised on the cutting-edge of innovation and technologies, KU Leuven and its high-tech spin-off companies infuse the city with unbridled genius and creativity. With its forward-

thinking approach to sustainability and quality of life, Leuven was the first Belgian city to win the prestigious European Green Leaf Award. The city has made sustainability a top priority, taking major strides to achieve its goal: a climate neutral future. In 2020 Leuven was also awarded the iCapital award, and can thus proudly call itself the European capital of innovation. To top this prestigious list of awards, the city was also given the title of "European City of Sport 2021". For more information about Leuven click [here](#).

FLANDERS BELGIUM

FLANDERS WAS AWARDED THE UCI BIKE REGION LABEL IN FEBRUARY 2021

Flanders hosted the 2021 UCI Cyclo-Cross World Championships and will host the UCI Road World Championships in September 2021.

The Flemish cycling policy plan was adopted in 2016, while a new strategy for bicycle use will be implemented in the run-up to the 2021 UCI Road World Championships, allowing for collaboration between all governments, knowledge institutes, social organizations and platforms.

The network of cycling highways in Flanders includes 119 individual routes and a total of 2,650 km, while investments in cycling infrastructure should increase to 300 million euro a year by 2024.
