The UCI ranking will determine the order of the caravan at stage 1. All the vehicles driving in the motorcade are restricted to a maximum height of 1.66 m (art. 2.2.032).

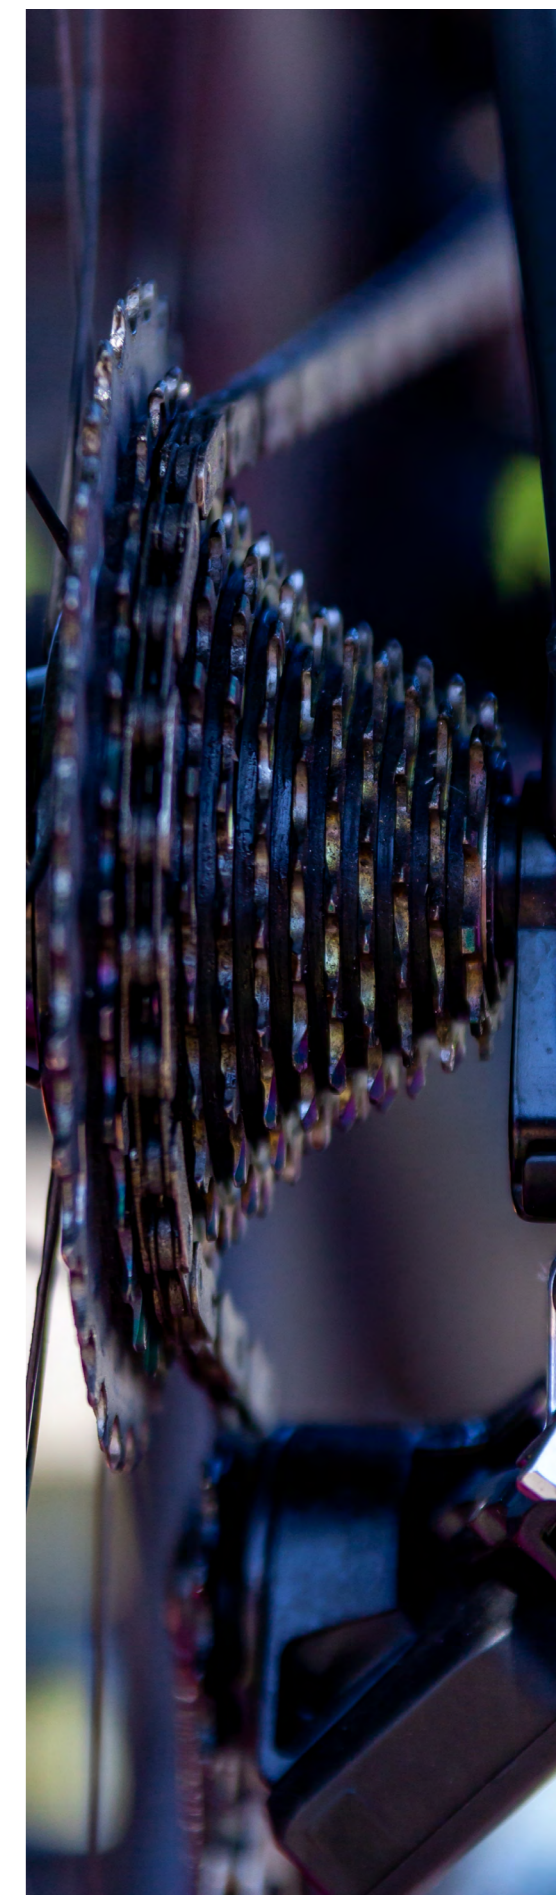

A team car is permitted behind each rider at stage 4 (ITT).

Only one vehicle per team will be permitted to circulate at race level. The team car shall carry a sports director who holds the appropriate license, who shall be responsible for the vehicle (UCI art. 2.2.035).

Riders and all cars in the convoy must follow the instructions of Police, race-marshals and respect the Norwegian and Danish traffic rules. All roads are open for normal traffic, but there will be a rolling closure of each stage. All drivers/pilots must in addition to their official driver's license have an approved license from their respective national federation (including a UCI license number). Only vehicles with a yellow sticker (Official, team, media) are allowed between the first and last car of the race (red and green flag).

Article 20. Sign On / Team presentation

It will be held a team presentation along with the sign-on before all stages except stage 4. All teams will be given a specific time slot of presentation. The time schedule will be handed out at the team managers meeting before stage 1 and then together with the daily results. We kindly ask the teams to respect the schedule and meet as a complete team to the presentation!
