FUJAIRAH FORT

Fujairah Fort is one of the important and largest forts of the Emirate. It is characterized by its position on a high hill in the old Fujairah region and is 3 kilometers away from the coast. It is built up to about 20 meters above sea level and oversees the whole city of Fujairah at this height. The design of the Fort differs from the usual engineering designs of the rest of the forts.

It has three circular towers while the fourth one is a square for halls. Radiocarbon analysis estimates that the fort was constructed between 1500 and 1550, according to the Fujairah Tourism and Antiquities Authority. The fort was built using materials available in the area at that time such as rock, gravel, and clay stacked together using lime-based plaster.

FUJAIRAH COAST

Fujairah is the only emirate that is located completely on the eastern coast of the UAE along the Gulf of Oman. Due to its strategic position, it is the UAE's only access to the Indian Ocean. The shores of Fujairah extend along the Gulf of Oman for about 70km, from the city of Fujairah in the south to the town of Dibba in the far north

FUJAIRAH INTERNATIONAL MARINE CLUB

Fujairah International Marine Club was established in 1999 under the Patronage of His Highness Sheikh Hamad Bin Mohammed Al Sharqi, Member of the Supreme Council and Ruler of Fujairah, to honour, preserve and maintain their historical relationship with the sea for the present and the future as well as to host and organize some of the world's best maritime sports such as the Class One, The Formula One, Formula 2 and X-Cat World Powerboat Series.

In addition to international events, it organizes national and local events such as UAE Jet Ski Championship, rowing races, and fishing competitions

THE SHEIKH ZAYED MOSQUE IN FUJAIRAH

The Sheikh Zayed Mosque in Fujairah was built and opened for worship in 2015, with the first Eid prayer led by His Highness Sheikh Hamad Bin Mohammed Al Sharqi, Member of the Supreme Council and Ruler of Fujairah.

The mosque is also called the Sheikh Zayed Grand Mosque Fujairah and is now the main mosque in the emirate. It also holds the crown of being the second-largest

SEVENTH STAGE

26 FEBRUARY 2023

Hazza Bin Zayed Stadium — Jebel Hafeet

HAZZA BIN ZAYED STADIUM

The home of Al Ain FC, this 25,000-seat stadium is one of Al Ain's tallest buildings and a recognizable landmark.

The outer façade design of this stadium is inspired by a palm tree trunk, an integral part of the UAE's heritage and culture. The stadium is part of a wider project, constructed in phases, which will ultimately include residential, commercial, and entertainment areas, as well as a luxury hotel and sports facilities.

AL JAHILI FORT

Al Jahili Fort is one of the UAE's most historic buildings. It was erected in 1891 to defend the city and protect precious palm groves. The former headquarters of the Oman Trucial Scouts, the force that protected the mountain passes and kept inter-tribal peace, it also served as a residence for the local governor. It is set in beautifully landscaped gardens, and visitors are encouraged to explore it.

AL AIN OASIS

In the heart of the city, the Al Ain Oasis has been opened as the UAE's first curated UNESCO World Heritage site visitor experience. Spread over 1,200 hectares (nearly 3,000 acres) and containing more than 147,000 date palms of up to 100 different varieties, this impressive oasis is filled with palm plantations, many of which are still working farms. The cool, shady walkways transport you from the heat and noise of the city to a tranquil haven; all you will hear is birdsong and the rustle of the palm fronds. The site introduces visitors to the delicate oasis ecosystem and the importance it has played in the development of the emirate.

AL AIN PALACE MUSEUM

Located on the western edge of Al Ain Oasis, the Palace of the late Sheikh Zayed bin Sultan Al Nahyan was built in 1937. It was converted into a museum in 1998 and opened to the public in 2001. The original structure comprised a private residence for the ruler and his family within a complex of courtyards.

The architectural design and construction of Al Ain Palace is typical of historical buildings of the UAE. It features characteristic ventilation structures that are designed to keep the buildings cool in the summer.

Locally sourced and environmentally friendly building materials were used, includ-

ing clay, adobe and plaster stones, as well as palm tree elements for roofing rooms, ceilings, doors and windows. The use of teak was later introduced in the renovation of the buildings.

HILI ARCHAEOLOGICAL PARK

If history fascinates you, then you'll want to add Hili Archaeological Park to your itinerary. Now a modern park where you're able to picnic and go for peaceful walks, this UNESCO World Heritage site dates back to the Bronze Age and includes evidence of settlements dating back to about 2000 BCE, with ancient tombs. Also visit the nearby Hili 8 where, in 1977, French archaeologists began excavating and found the remains of barley, wheat, and date palm as well as bronze objects, pottery, and livestock. Today, you'll find ancient tombs, built with the utmost care, and exposed building foundations.

SOUQ AL QATTARA

Dating back to the mid-20th century and founded by the late Sheikh Shakhbut bin Sultan Al Nahyan on the palm-lined road linking Al Ain's Al Qattara and Al Jimi oases, the historic Souq Al Qattara has been renovated and re-opened. A traditional handicrafts market takes place here every Thursday, Friday and Saturday from October to May, encouraging local families to preserve and promote Abu Dhabi's heritage through an active involvement in traditional craft production. The Souq is linked to the redeveloped Al Qattara Fort, now home to a popular arts center, featuring hundreds of modern exhibits, workshops, a café and a library.

AL QATTARA ARTS CENTRE

What was originally the Al Qattara Fort is today the Al Qattara Arts Centre. This traditional mud-brick tower and house is located on a mound overlooking the date-palm gardens of Qattara Oasis, which it was originally built to protect. Showcasing carefully restored traditional local architecture, the centre aims to provide a family-friendly venue where arts and culture can be studied, practiced, and developed by the entire UAE community and visiting travellers.

UAE UNIVERSITY

United Arab Emirates University is the oldest university in the United Arab Emirates. It was established in 1976. The UAEU is an accredited research-based institution. Its alumni have provided the United Arab Emirates with ministers, diplomats, senior government officials, and business leaders. <https://www.uaeu.ac.ae/ar/>

SHEIKH KHALIFA BIN ZAYED GRAND MOSQUE

The Sheikh Khalifa Bin Zayed Grand Mosque, also known as Al Ain Grand Mosque, will be able to accommodate 20,000 worshippers. It is composed of a basement level and ground floor and will also include a 160-meter-wide dome that will cover the main prayer hall and four 60-metre-tall minarets. The complex will also include other buildings for classrooms and offices, as well as underground parking.

QASR AL MUWAIJI

For more than 100 years, this incredible historic fort has played a major role in the history of the United Arab Emirates. The Qasr Al Muwaiji fort was built in the early 20th century to protect and watch over the oasis, and is a great place to take photos today. The simple yet impressive square enclosure features a grand entrance gate and protruding corner towers. Over the years, Qasr Al Muwaiji has been used as a home for the ruling family, a place for the community to gather, and as a seat of governance.

AL AIN ZOO

This 900-hectare park near the base of Jebel Hafeet is where visitors can see a large animal collection in enclosures that closely resemble their natural habitats. There are plenty of green public spaces for picnics and playgrounds, a cafeteria, and a train tour of the wildlife area. The Al Ain Zoo is home to over 4,000 animals.

GREEN MUBAZZARAH

Strategically located at the feet of the Jebel Hafeet Mountains, Green Mubazzarah is home to a number of spending Chalets that make a great retreat away from the noise of the metropolis providing guests with a deluxe lodging and intimate access to the great outdoors. Green Mubazzarah occupies part of the rocky mountain side and been landscaped with rolling grassy hillsides alongside streams, hot springs and waterfalls.

JEBEL HAFEET

Rising 1,240 meters, Jebel Hafeet is the emirate's highest peak, and the UAE's second. This towering rocky mountain, which stands guard over Al Ain and borders Oman, is forged out of craggy limestone that has been weathered over millions of years. Significant fossil discoveries have been made in the area, which are vital pieces in the jigsaw on the city's ancient history. Over 500 ancient burial tombs dating back 5,000 years have been found in the Jebel Hafeet foothills.
