DISINFECTION
- I disinfect and clean the interior of my vehicle with virucidal products every day

CONTROL OF YOUR VEHICLE

- Stick to a healthy lifestyle for the 3 weeks (sleeping well, eating well...)

ROADBOOK

- I prepare the stage in advance and note the distinctive features

SEATBELTS
- Their use is obligatory in both the front and rear seats of vehicle

RESPECT
- Instructions given by the race organization (access, evacuation);
- Other race followers;
- The places you are travelling through that are hosting the Tour

REGULATE SPEED AND KEEP A SAFE DISTANCE BETWEEN VEHICLES
- At 30 or 50kph in builtup areas, according to road signs;
- At 30kph when there are large crowds at the roadside;
- At a maximum of 80kph outside built-up areas

FEUX ALLUMÉS
- Headlights are to be used constantly on dipped beam (even if your vehicle is equipped with daytime running lights)

ON PRIVATELY AND PUBLIC ROADS

PSYCHOTROPES

PENALTIES

All improper behaviour (speeding, use of a mobiles, sexual and sexist harassment, not respecting the rules, etc.) will be subject to penalties ranging from a warning to temporary exclusion from the race, or even more severe penalty for more serious or repeat offences.

- **Refusal to obey vehicle regulations** will result in the immediate withdrawal of the vehicle concerned from the race caravan and its driver being called before the disciplinary committee.
- **The tolerances allowed on the roads within this privately run event** do not extend to lessening of the criminal responsibility of every driver in the event of an accident.

BE AWARE, IT'S YOUR TOUR!

PLEASE BEHAVE RESPONSIBLY!

For more than a decade, the Tour de France has been implementing measures to reduce its environmental impact. Along with local councils, Départements de France (DF) and organisations such as Les Connexions, Gestes Propres and ecosystem, you too can become a major player in our initiative.

AND ONCE AGAIN THIS YEAR:

ecosystem recycler c'est protéger is joining us to manage the disposal of small items that are no longer needed (e.g. coffee makers, bulbs...).

WASTE MANAGEMENT

TO EVERYONE ON THE TOUR!

- **You're responsible for the waste that you generate, both in the areas where you're working and when you're in other zones on the race!** You need to make proper use of the waste management systems that are set up in the Tour de France's different zones (Technical Zone, press centre, service stations, etc.).If there aren't any rubbish bins close to hand, you should hold on to your litter until you can dispose of it later.You shouldn't leave rubbish in a corner or lying on a table at any time and you also shouldn't throw anything on the ground, no matter whether you're in one of the Tour de France's zones, out on the road, or in a hotel! If you're a smoker, **don't throw your cigarette butts on the round.** Ashtrays can be provided by the race's environmental coordinators.
- **You're responsible for the health protection equipment that you've used** (masks, gloves, tissues...).You should never leave them lying around or throw them on the ground.Once you've used them, put them in the bins intended for household waste (grey bin bags, containers with grey stickers).
- **You're responsible for sorting** all recyclable packaging, batteries and electrical equipment, using the disposal facilities put in place in the different zones.You should identify the contents by sticking labels on them. **I empty all recyclable packaging in bulk** in the dedicated bins (yellow stickers).
- **You should use the rubbish bags provided by the Tour de France and dispose of them in the containers provided for this purpose** in the different zones (bags can be collected from the permanence at the Grand Départ, in the Technical Zone in the Tour Village at stage starts and from waste management coordinators present at starts and finishes throughout the race).

IF YOU'RE PART OF THE PUBLICITY CARAVAN

- **You should adjust the amount of material** you hand out depending on the location (watching out for water courses, cliff edges...) and the number of spectators at the roadside;
- **You should encourage fans to dispose sensibly** of the packaging that comes with the publicity products that are distributed to them.

IF YOU'RE A RACER

- **During the race**, when you need to throw away any rubbish (bottles,packaging), you should do so in the collection zones;
- **When you're not in these zones**, pass your rubbish to a car in the convoy or keep it in the pockets of your jersey.

DRIVING

IF YOU'RE USING A CAR ON THE RACE

- You should switch off the vehicle's engine if you stop for more than a minute;
- You should encourage car-sharing whenever possible;
- You should drive in an eco-friendly manner, paying attention to your speed (less pollution, less consumption).

Waste management coordinators can be found at the start and finish of every stage and will ensure proper implementation of these initiatives and provide you with advice.

Don't hesitate to contact them if you've got any queries or want to dispose of specific waste items (electrical equipment, lamps...).

THINGS TO SEE AND DO

metropole.toulouse.fr

Basilica of Saint-Sernin, Toulouse ©Rémi Deligeon

Convent of the Jacobins, Toulouse ©P.Nin

THE CAPITOLE

The seat of municipal power, the majestic brick and stone façade of this neoclassical masterpiece overlooks Place du Capitole. The scenes depicted on its walls recount the great moments in Toulouse's history. Don't miss the Salle des Illustres!

SAINT-SERNIN BASILICA

Built in tribute to the first bishop of Toulouse, it was constructed between the 11th and 13th centuries. Wander around the building and admire its chapels and octagonal bell tower, which are typical of Toulouse architecture. A stopover on the Camino de Santiago de Compostela pilgrims' route, its classification as a UNESCO World Heritage Site recognises this link.

THE JACOBINS' CONVENT

A jewel of southern Gothic architecture, the former Dominican convent is a typical example of this 13th-century style. The church is radiant with light thanks to its stained-glass windows and 28-metre-high choir that's vaulted in the form of a palm tree.

THE CITÉ D'ESPACE

This attraction, the only one of its kind in Europe, takes you deep into the realm of space: you can examine an Ariane 5 rocket, experience a lunar mission with the LuneXplorer, and imagine that you're up among the stars. A fun and fascinating interpretative path allows both young and old to enjoy the 2,500m² exhibition area!

AEROSCOPIA MUSEUM

If you've dreamed of going into the cockpit of the legendary Concorde or perhaps an Airbus A380, head to the Aeroscopia Museum to see its collection of exceptional aircraft.

L'ENVOL DES PIONNIERS

Located on a historic site, the Envol des Pionniers takes you on a great adventure that links the history of aeronautics and of Toulouse, the Aéropostale airmail service, featuring legendary names such as Saint-Exupéry, Mermoz, Guillaumet and their comrades.

THE MACHINE HALL

Machines come to life before your very eyes here, including the Minotaur, which was created by François Delarozière for Toulouse and toured the streets of the city during the Gardien du Temple shows in 2018 and 2024. Every day, members of the public climb aboard this monumental machine for an unforgettable journey.

PLACE DE LA COMÉDIE
This square is the symbol of the city's prosperity during the 18th and 19th centuries. It's home to two emblematic landmarks: the Opéra Comédie, an Italian-style theatre built in 1888, and the statue of the Three Graces which crowns the fountain. The square is one of the largest pedestrian precincts in Europe.

PROMENADE DU PEYROU
Continuing on from the city's Arc de Triomphe, the Promenade du Peyrou, a royal square and belvedere that has views in all directions, is home to a statue of Louis XIV mounted on a horse that was completed by the architect Jean Giral in 1774. You can also admire the water tower designed in the 18th century. The Arc de Triomphe and the water tower that feeds the Arceaux aqueduct are models of classical architecture.

FACULTY OF MEDICINE
The oldest medical school in the western world still in operation.
