Beyond the finish line is a sensitive zone:

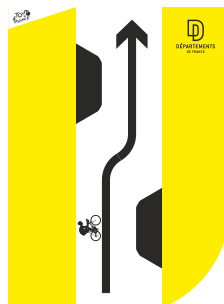

- the security of the riders is paramount;
- the work of their team and the media take priority.

If you do not have any reason to be in this zone, you must leave it when you hear an audible signal announcing the imminent finish of the race. Tour de France management and representatives of the Amaury Sport Organisation will be responsible for checking the validity of your presence and could, if necessary, withdraw your accreditation.

BE AWARE, IT'S YOUR TOUR!

PLEASE BEHAVE RESPONSIBLY!

For more than fifteen years, the Tour de France has been implementing measures to reduce its environmental impact. Along with local councils, Départements de France (DF) and organisations such as Les Connexions, Gestes Propres and ecosystem, you too can become a major player in our initiative.

WASTE MANAGEMENT

TO EVERYONE ON THE TOUR!

- I prefer to use my reusable water bottle.
- You're responsible for the waste that you generate, both in the areas where you're working and when you're in other zones on the race! You need to make proper use of the waste management systems that are set up in the Tour de France's different zones (Technical Zone, press centre, service stations, etc.). If there aren't any rubbish bins close to hand, you should hold on to your litter until you can dispose of it later. You shouldn't leave rubbish in a corner or lying on a table at any time and you also shouldn't throw anything on the ground, no matter whether you're in one of the Tour de France's zones, out on the road, or in a hotel! If you're a smoker, **don't throw your cigarette butts on the ground**. Ashtrays can be provided by the race's environmental coordinators.
- You're responsible for the health protection equipment that you've used (masks, gloves, tissues...). You should never leave them lying around or throw them on the ground. Once you've used them, put them in the bins intended for household waste (grey bin bags, containers with grey stickers).
- You're responsible for sorting all recyclable packaging, batteries and electrical equipment, using the disposal facilities put in place in the different zones. You should identify the contents by sticking labels on them. **I empty all recyclable packaging in bulk** in the dedicated bins (yellow stickers).
- You should use the rubbish bags provided by the Tour de France and dispose of them in the containers provided for this purpose in the different zones (bags can be collected from the permanence at the Grand Départ, in the Technical Zone in the Tour Village at stage starts and from waste management coordinators present at starts and finishes throughout the race).

IF YOU'RE PART OF THE PUBLICITY CARAVAN

- You should adjust the amount of material you hand out depending on the location (watching out for water courses, cliff edges...) and the number of spectators at the roadside;
- You should encourage fans to dispose sensibly of the packaging that comes with the publicity products that are distributed to them.

IF YOU'RE A RACER

- During the race, when you need to throw away any rubbish (bottles, packaging), you should do so in the collection zones;
- When you're not in these zones, pass your rubbish to a car in the convoy or keep it in the pockets of your jersey.

©A.S.O.

AND ONCE AGAIN THIS YEAR:

ecosystem is joining us to manage the disposal of small items that are no longer needed (e.g. coffee makers, bulbs...).

Environmental Coordinators are available to support you throughout each stage and will provide the equipment required for waste management. We invite you to collect bin bags and battery collection boxes from them at the Grand Départ staff HQ or in the Technical Village at the waste sorting information point. For the finish, they can be contacted using the details provided at the bottom of the waste sorting guide.

DRIVING

IF YOU'RE USING A CAR ON THE RACE

- You should switch off the vehicle's engine if you stop for more than a minute;
- You should encourage car-sharing whenever possible;
- You should drive in an eco-friendly manner, paying attention to your speed (less pollution, less consumption).

Waste management coordinators can be found at the start and finish of every stage and will ensure proper implementation of these initiatives and provide you with advice.

Don't hesitate to contact them if you've got any queries or want to dispose of specific waste items (electrical equipment, lamps...).

RACE REGULATIONS

ARTICLE 1. ORGANISATION

The 5th Tour de France Femmes avec Zwift is organised by TDF Sport and Amaury Sport Organisation (A.S.O.) under the regulations of the Union Cycliste Internationale (UCI) and the Fédération Française de Cyclisme (FFC). It will take place between Saturday 1 August and Sunday 9 August 2026, and comprises 9 stages. The Tour de France Femmes avec Zwift is part of the UCI Women's WorldTour calendar.

ARTICLE 2. PARTICIPATION

The event is open to UCI Women's WorldTeams and UCI Women's Pro Teams.

A maximum of 21 teams of 7 riders each, totalling 147 participants, will start the race.

By mere fact of their involvement and/or participation in the event and/or their presence at the event, each team, each of its members and, more generally, each accredited staff member confirms that they accept all of the provisions within these regulations and undertake to respect them.

ARTICLE 3. PERMANENCE/RECEPTION DESK

The permanence/reception desk will be open on Friday 31 July between 14:30 and 18:00 at the following address:

Gymnasium Auguste Piccard / Ecole IMD
Chemin de Bellerive
1014 - LAUSANNE

Bib collection by licensed team staff will take place between 15:00 and 16:45.

The meeting of the Sports Directors, in the presence of the members of the Commissaires' Jury, is scheduled for 17:00 at the race organisation's permanence.

ARTICLE 4. RADIO TOUR

Race information will be broadcast on the Radio Tour frequency of 170.1250 MHz.

ARTICLE 5. NEUTRAL TECHNICAL ASSISTANCE

Neutral technical assistance will be provided by SHIMANO. The service will be provided by three cars and one motorcycle.

ARTICLE 6. INDIVIDUAL GENERAL CLASSIFICATION BY TIME

The individual general classification by time is determined by adding together the times recorded on each of the 9 stages, taking into account penalties according article 2.6.014 of the UCI regulations.

In the event of a tie in the times on the general classification, the hundredths of a second recorded by the timekeeper during the individual time trial will be taken into account in order to split the riders. If there's no time trial during the race, or in the event of a further tie, placings on

each stage will be added together, and, as a last resort, placings on the final stage will be taken into account.

The leader of the individual general classification by time wears the yellow jersey.

ARTICLE 7. INDIVIDUAL POINTS CLASSIFICATION

The individual points classification is determined by adding together the points obtained on each of the 9 stages, as well as in the intermediate sprints, according to the following scales and taking into account any points penalties incurred.

For road stages without significant difficulty (stages 1, 2, and 8): 50 - 30 - 20 - 18 - 16 - 14 - 12 - 10 - 8 - 7 - 6 - 5 - 4 - 3 - 2 points to the first 15 riders classified.

For hilly road stages (stages 3, 5, and 6): 30 - 25 - 22 - 19 - 17 - 15 - 13 - 11 - 9 - 7 - 6 - 5 - 4 - 3 - 2 points awarded to the first 15 finishers.

For very difficult road stages (stages 7 and 9): 20 - 17 - 15 - 13 - 11 - 10 - 9 - 8 - 7 - 6 - 5 - 4 - 3 - 2 - 1 point awarded to the first 15 finishers.

For the individual time trial (stage 4): 20 - 17 - 15 - 13 - 11 - 10 - 9 - 8 - 7 - 6 - 5 - 4 - 3 - 2 - 1 points to the first 15 riders.

At each intermediate sprint: 25 - 20 - 17 - 15 - 13 - 11 - 10 - 9 - 8 - 7 - 6 - 5 - 4 - 3 - 2 points to the first 15 riders.

The leader of the points classification wears the green jersey.

In accordance with article 2.6.017 of the UCI regulations, in the event of a tie in the points classification, the riders will be separated by the number of stage wins, then by the number of wins in intermediate sprints counting towards the points classification, and, finally, by their placing in the individual general classification by time. To be included in the individual points classification, the prize winners must complete the Tour de France Femmes avec Zwift. If a rider (or riders) finishes outside the time limit and is reinstated by the commissaires' jury, all of the points they've earned in the individual points classification will be forfeited.

ARTICLE 8. INDIVIDUAL CLASSIFICATION FOR THE BEST CLIMBER

The individual classification for the best climber is determined across all of the passes and climbs on each of the 8 road stages, in accordance with article 2.6.017 of the UCI regulations.

The following points are awarded for each pass or climb:

- super-category (hors catégorie) passes, climbs or summit finishes: 15 - 12 - 10 - 8 - 6 - 4 - 2 - 1 points to the first 8 riders classified;
- first-category passes, climbs or summit finishes: 10 - 8 - 6 - 4 - 2 - 1 points to the first 6 riders classified;
- second-category passes, climbs or summit finishes: 5 - 3 - 2 - 1 points to the first 4 riders classified;
- third-category passes or climbs: 3 - 2 - 1 points for the first 3 riders classified;

- fourth-category passes or climbs: 2 - 1 points for the first 2 riders classified.

An overall classification is established by adding together the points obtained on all of the passes and climbs.

The leader of the best climber classification wears the white jersey with red polka dots.

In accordance with article 2.6.017 of the UCI regulations, in the event of a tie in the mountains classification, the following criteria are applied until the tie is broken:

- number of first places on super-category passes, climbs or summit finishes;
- number of first places on first-category passes, climbs or summit finishes;
- number of first places on second-category passes, climbs or summit finishes;
- number of first places on third-category passes or climbs;
- number of first places on fourth-category passes or climbs;
- final position in the general classification by time.

ARTICLE 9. BEST YOUNG RIDER CLASSIFICATION

The best young rider classification is open to riders born on or after 1 January 2003.

A stage classification and an individual general classification by time are determined.

At the end of the final stage, the highest-placed rider in the individual general classification by time is declared the winner of the best young rider classification.

The leader of the best young rider classification wears the white and purple jersey.

ARTICLE 10. TEAM CLASSIFICATION

In accordance with article 2.6.016 of the UCI regulations, the team classification for the day is determined by adding together the three best individual times of each team. In the event of a tie, teams are separated by the sum of the finishing positions of their three best-placed riders on the stage. If there's still a tie, positions are decided by the finishing position of each team's best rider in the stage classification.

The overall team classification is determined by adding together the three best individual times on each team across all of the stages. In the event of a tie, the following criteria are applied until the tie is broken:

- 1) number of first-place finishes in the team classification for the day;
- 2) number of second-place finishes in the team classification for the day, etc.

If there's still a tie, positions are decided by the finishing position of each team's best rider in the individual general classification.

Any team that's reduced to fewer than three riders is eliminated from the team classification.

ARTICLE 11. COMBATIVITY AWARD

The combativity award recognizes the rider who is the most generous in their effort and shows the most sporting spirit. This prize, which is awarded on each of the 8 road stages, is decided by a jury chaired by the race director.

The winner of the super-combativity award is selected by the jury members at the end of the Tour de France Femmes avec Zwift.

ARTICLE 12. BEST TEAMMATE AWARD

The best teammate award recognises the rider who has shown the most selflessness and/or dedication to her team. This winner is selected by a jury chaired by the race director and is given out at the end of the Tour de France Femmes avec Zwift.

ARTICLE 13. TIME ELIMINATION LIMITS

The elimination limits are as follows:

- Stages 1, 2, and 8: 12%
- Stages 3, 5, and 6: 15%
- Stages 7 and 9: 20%
- Stage 4: 25%

Any exceptional situation will be decided by the commissaires' jury after consultation with the race director.

The finishes of stages 1 and 9 are uphill. Therefore, the rule applied to the last 3 kilometres doesn't apply.

ARTICLE 14 - STAGES EXPECTED TO FINISH WITH A BUNCH SPRINT

The following stages are designated as "bunch sprint finishes":

- Stage 2 / Aigle > Geneva (the sprint zone begins at 5km)
- Stage 3 / Geneva > Poligny (the sprint zone begins at 5km)
- Stage 8 / Sisteron > Nice (the sprint zone begins at 5km)

On these stages, the protocol for stages designated as a "bunch sprint finish" in the regulations section on the UCI website will be applied. The distance of the extension stipulated in article 2.6.027 and the calculation of time gaps will be applied as detailed in the protocol.

ARTICLE 15. TIME TRIAL STAGE

On the 4th stage, an individual time trial, riders will start in reverse order of overall ranking at the end of the 3rd stage. They will start at 1-minute intervals initially and then at 2-minute intervals for the last 20 competitors. Training is prohibited on the course as soon as the first rider starts.

ARTICLE 16. TIME BONUSES

Time bonuses are awarded at the finish of all 8 road stages; these amount to 10, 6, and 4 seconds and go to the first three riders to finish. Additional time bonuses, called Bonus Points, are awarded at key points of particular difficulty along the course. There are a total of 3 Bonus Points, located on the 3rd, 5th, and 6th stages. These bonuses offer 6, 4, and 2 seconds to the first three classified riders.

ARTICLE 17. LEADERS' JERSEYS

On all stages – apart from the world champion's, continental champions', or national champions' jerseys, which are mandatory – each rider may only wear her team's jersey, bib shorts and cap, and these must comply with UCI regulations. The leaders of the general classification by time, the points classification, the mountains classification and the best young rider classification are required to wear:

- in the first case, the "yellow jersey"
- in the second case, the "green jersey"
- in the third case, the "white jersey with red polka dots"
- in the fourth case, the "white and purple jersey";

All of these jerseys must be worn as provided by the organisers. They may include rectangular advertising strips bearing team names within the limits set by UCI regulations. There's an order of priority for the different leaders' jerseys: yellow jersey, then green jersey, then white jersey with red polka dots and, finally, white and purple jersey. When a rider is leading several classifications, she naturally only wears one jersey: the one designated by the order of priority. The other jerseys are then worn by the next highest-placed rider, the 2nd, 3rd, or 4th in the corresponding classification. However, if this rider is required to wear her world champion's, continental champion's or national champion's jersey, she will wear that jersey. Wearing the yellow, green, white with red polka dots, or white and purple leader's jersey (whether short-sleeved or long-sleeved) is mandatory from the pre-stage sign-in until the post-stage press conference.

However, a classification leader may attend the awards ceremony wearing her team jersey. Furthermore:

- the rider designated as the most combative will be identified by two specific bibs featuring white numbers on a green background.
- the riders on the team leading the team classification will wear specific bibs featuring black numbers on a yellow background, as well as yellow helmets provided by the teams;
- the green bib of the most combative rider takes precedence over all other bibs.

ARTICLE 18. ANTI-DOPING - ANTI-DOPING CONTROL

A.S.O. and each of the participating teams consider it absolutely essential to adhere strictly to the rules and recommendations laid down by the competent authorities regarding the fight against doping, as well as the obligation to maintain completely irreproachable conduct in this regard. The participating teams commit to applying these rules and recommendations and will be fully responsible for their complete compliance by their riders and, more generally, by all of their staff and service providers.

The anti-doping control is carried out under the aegis of the ITA by designated officials in the organisation's mobile home at the finish line of each stage.

ARTICLE 19. PROTOCOL - INTERVIEWS

At the end of each stage, the following must appear at the awards ceremony:

- the stage winner;

- the leader of the individual general classification;
- the leader of the points classification;
- the leader of the best climber classification;
- the leader of the best young rider classification;
- the stage's most combative rider;
- the first rider at the Bonus Point (stages 3, 5, and 6)

The stage winner and the leader of the general classification must appear in the press room.

The team classification award ceremony will take place before the start of the next stage.

All riders from the team that's won the previous stage must appear in their race kit for the protocol ceremony at the sign-on podium, accompanied by one of their sports directors.

At the end of the final stage, the following must appear at the final awards ceremony:

- the winner of stage 9;
- the winner of the 5th Tour de France Femmes avec Zwift;
- the top three in the individual general classification;
- the winner of the points classification;
- the winner of the best climber classification;
- the winner of the best young rider classification;
- the final stage's most combative rider;
- the most aggressive rider (super-combative) of the Tour de France Femmes avec Zwift;
- the winning team in the team classification;
- presentation of the winners of the four leader's jerseys.

ARTICLE 20. UCI RANKINGS

This event counts towards the Women's Elite ranking and awards points according to articles 2.10.009 to 2.10.017 of the UCI regulations.

ARTICLE 21. PENALTIES

The penalty scales comply with the UCI regulations.

ARTICLE 22. ENVIRONMENT

A.S.O. provides designated waste collection areas. Riders may only dispose of their waste, water bottles and any other items in these designated areas.

Riders and support staff must behave responsibly towards the environment at all times and in accordance with applicable laws.

ARTICLE 23. DISQUALIFICATION - EXCLUSION

23.1. A.S.O. considers as essential the preservation of its image and reputation, as well as those of the race.

A.S.O. expressly reserves the right to refuse participation in – or to exclude from – the race, any team or one of its members whose presence could damage the image and/or reputation of A.S.O. and/or the race.

23.2. Furthermore, A.S.O. may disqualify or exclude a team or one of its members from the race in the following circumstances:

- violation of the race rules, including those concerning internal race discipline (e.g. rules regarding accommodation);
- serious violation of French law;

- act of vandalism committed during or outside the race;
- indecent attire or inappropriate behaviour;
- any other act or incident that could damage the image and/or reputation of A.S.O. and/or the race.

23.3. The right of disqualification or exclusion referred to in articles 23.1 and 23.2 above will be exercised under the following conditions:

a) A.S.O. shall notify the team of its decision in writing, either by registered letter with acknowledgment of receipt, by hand-delivered letter with receipt, by fax, or by email.

This letter must:

- specify whether the disqualification or exclusion is related to the presence of the entire team or to the presence of certain specifically named members;
- specify that, if the disqualification or exclusion is related to the presence of one or more of its specifically named members, the team, in its capacity as employer, must remove them from its roster for the event or, failing that, automatically forfeit all participation in the race for the entire team;
- state the grounds on which it is based;
- mention that, to contest this decision, the team will have 24 (twenty-four) hours from receipt of the letter of disqualification or exclusion to appeal to the Court of Arbitration for Sport (CAS) in Lausanne; otherwise, the team will be deemed to have definitively accepted the disqualification or exclusion.

b) If the team appeals, the CAS will immediately appoint a sole arbitrator in an expedited procedure in accordance with the CAS rules of procedure. After inviting each party to present its case, the arbitrator will decide, within the time constraints

imposed by the urgency of the matter, whether to disqualify or exclude the entire team or one or more of its members.

The language of the arbitration will be French.

The arbitrator will decide the dispute in accordance with French law.

The arbitral decision is final and cannot be appealed.

ARTICLE 24. - IMAGE RIGHTS

In order to allow for the widest possible dissemination and promotion of the Tour de France Femmes avec Zwift, each sporting group, and consequently each of its riders, acknowledges that their participation in the race authorises the organiser and its rightsholders or representatives to reproduce and represent, without remuneration of any kind, their name, voice, image, biography and, more generally, their sporting performance within the framework of the Tour de France Femmes avec Zwift, as well as the trademark(s) of their equipment suppliers and sponsors, in any form, on any existing or future medium, in any format, for any communication to the public worldwide, for any use including advertising and/or commercial purposes without any limitation other than those specified below, and for the entire duration of the protection currently granted to these uses by the legislative or regulatory provisions, judicial and/or arbitral decisions of any country, as well as current or future international conventions, including any possible extensions of this duration.

However, when the organiser authorises a third party to use race images for advertising or promotional purposes, they will not authorise

that third party to use the name, voice, image, biography, or athletic performance of a rider, nor the trademark of their sponsor or equipment supplier for any direct or indirect association between that rider, their sponsor's equipment supplier's brands, and the product, service, trademark, or trade name of said third party without the express authorisation of the rider, sponsor or equipment supplier concerned.

Similarly, with the exception of books, photo books, comics, any form of publication, video cassettes, CD-ROMs, DVDs, or more generally any videograms or videodiscs, on any medium and format whatsoever, whose subject matter relates in whole or in part to the Tour de France Femmes avec Zwift, posters, flyers, road books, autograph books, map and official programmes relating to the Tour de France Femmes avec Zwift, the organiser will not exploit or authorise the exploitation of the individual image of any rider for the marketing of derivative products or merchandise.

ARTICLE 25. - SPORTS BETTING

In order to prevent any risk of conflicts of interest, teams and each of their members (riders, support staff, coaches, doctors, etc.) are obligated not to place, personally, directly or indirectly, any sporting bets related to the Tour de France Femmes avec Zwift.

ARTICLE 26.

These regulations have been drafted in the French language, which shall take precedence in the event of any difficulty in interpreting its terms in another language.
